

GIRAFFE DESIGN BUILD

Folk Victorian Whole House Remodel

10

Scottie Davison Photography

514 6th Street, Ann Arbor

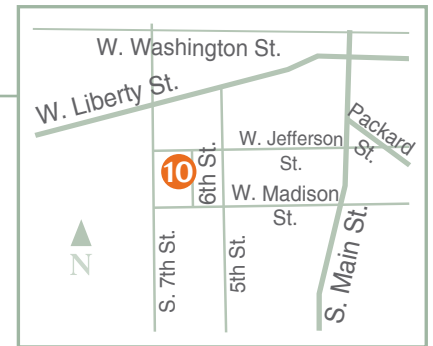

Giraffe fully renovated this beautiful, folk-victorian home in Westside Ann Arbor's tree-lined, historic district to create more functional living spaces for a growing, young family. The entire first and second floor were redesigned for better flow and circulation and a small breakfast niche addition was added to the back of the home.

We transformed the previously divided interior to create an expansive, open kitchen and dining space that overlooks the backyard garden and new screen porch addition. The new interior spaces are light-filled and airy as a result of the new floor plan and the addition of large oversized windows.

Riftsawn, white oak flooring and custom, historically-matched millwork from our local cabinet maker were added throughout the home referencing the original folk-victorian aesthetic.

About Giraffe Design Build

Giraffe Design Build helps design, build, and remodel spaces that intentionally support the way people live. Our approach blends exceptional expectations with client care - all achieved with equal parts experience and exuberance.

The home is located west of Main Street and south of W. Liberty Street. From Main Street, turn onto Madison Street, westbound. Turn right onto 6th Street. The home is on the left.
