Modern Home Uplift (Home Addition, Interior and Exterior Remodel)

Martin Vecchio Photography

1612 Waltham Drive, Ann Arbor

Even a small addition can improve the layout of your home! It only took adding a footprint of 155 square feet to transform our clients kitchen to the one of their dreams.

By bumping out the back of the home, we were able to relocate the kitchen, giving them the island they hoped for and new windows looking out to the backyard.

The old kitchen then got divided up to create a mudroom space just off of the garage and added space for the central dining room. The dining room also includes a pantry closet and separate coffee bar with built-in beverage fridge, providing even more storage.

In the family room, we added walls to create a new opening into the dining room to help define the spaces. A new front window provides the missing sightline to the front yard and the relocated patio door greets you into the new screened in porch.

Upstairs, we stacked the addition over the kitchen to give our clients a larger primary bathroom with plenty of storage and a large shower.

About Forward Design Build Remodel

Imagine loving the process, loving the team, and loving your home again. At Forward Design Build Remodel in Ann Arbor, our passion is to help you live better in your home. Our professional and experienced team ensures the entire process is smooth, transparent and enjoyable through each phase.

From Scio Church Road, Turn onto Waltham Drive, heading north. The home is on the left.
